Announcing for the week beginning tomorrow a grand holiday opening sale--toys, dolls, games

Notable for the variety of holiday goods offered and the low prices at which they will be sold.

BALLOONS FREE WITH TOY PURCHASES. A rubber balloon of finest quality will be given with toy purchases of 25c or more.

4th and 5th floors ONLY.

In the limited space available today only the briefest hint of the good things may be given, for which reason we wish to emphasize the fact that the articles are of the very best character and the most desirable to be had in the world's markets. WITHOUT HESITATION or fear of contradiction, we say we have as fine and well stocked departments (Toys, Dolls and Games) as will be found anywhere in this country, with none to equal ours elsewhere in the South.

SANTA CLAUS WILL BE HERE FOR ONE DAY—TOMORROW. He's been sending us wireless instructions galore and toys and dolls and games by the carloads. He is taking exceptional interest in our arrangements, and comes to see how things are going in what he calls MY STORE IN THE SOUTH.

Never such a doll at \$1.00 as our 24-inch Miss Viola

She is two inches taller than the one that "Took Washington by Storm" last year, and of the very same quality—That's her picture at the left. Size is but one of her attractive points. She is perfect in form, features, and complexion. The body is of finest paper mache, which is tough and not easily broken, and fitted thruout with the rolling ball joints, permitting adjustment of head and limbs to any position. HER HEAD is of fine bisque, with parted lips exposing her teeth, large bright blue or brown eyes, with light or dark hair in front part, side part, or bang style. It is indeed hard to give a satisfying idea of such a doll on paper. Take this advice:

Don't buy any doll until you've seen Miss Viola

Some of the big specials in toys for this sale

Special Demonstration of McDougall Kitchen Cabinets

By special arrangement we are now holding a very interesting and instructive practical demonstration of McDougall Kitchen Cabinets, under the direction of an expert sent us by the McDougall factory.

This is an unusual opportunity for you to find out why a McDougall Kitchen Cabinet will CUT your kitchen work in TWO and at the same time make a BIG SAVING in dollars and cents.

Make this the occasion for your inspection of the McDougall. Through the questions of yourself and your neighbors you will be able to get at the bottom of the kitchen cabinet question.

Our large Seventh street windows are devoted to this display, a MODEL KITCHEN being shown in complete detail. We know this window will prove interesting to you, and at the same time give you a practical insight into modern domestic economy.

McDougall Kitchen Cabinets are made to last a lifetime. They are constructed of the finest seasoned wood, with a wax finish that does not easily scratch or be affected by the steam and heat of the kitchen. The McDougalls are mouse-proof and dust-proof—the bins and drawers are all two-ply and easily removed and cleaned. Sanitary construction is a feature of every section of these wonderful cabinets.

Every woman can afford a McDougall. No economical woman can afford to be without a McDougall. And no economical woman can afford to buy any other kitchen cabinet than a McDougall.

The McDougall prices are low—\$14.25 to \$69.00. Don't buy any kitchen cabinet until you have seen the McDougall, and see it this week.

Sold on Easy Payments \$1.00 Down and \$1.00 a Week

The McDougall Kitchen Cabinet at \$14.25

The McDougall Kitchen Cabinet at \$30.75

Is made of satin walnut, finished with wax, and will not easily scratch or be affected by the steam and heat of the kitchen. The table top is 27 by 44 inches and covered with zinc. Under this table top is a large 75 pound gliding flour bin, a bread board, two large drawers, and ample space for pots, kettles, etc. Above the table top are three shelves, a plate rack, a set of cup hooks, and two small cupboards.

This is one of the best selling kitchen cabinets in the line. It is made of fine satin walnut and finished with wax. The table top is 27 by 44 inches, and under it is a large 75 pound gliding flour bin, a bread board, a large drawer, and a spacious cupboard with shelf. The top is just like the above picture. It contains a plate rack, a cupboard, six small drawers, three small shelves, and three bins working on rocking hinges.
